• Bachelor of Technology in **Computer Science** as a major with 8.9 CGPA.

WORK EXPERIENCE

Senior Software Development Engineer **KONY INDIA PVT. LTD, HYDERABAD** **May 2019 – Now**

- Worked on **App Factory (Kony's CI/CD tool)**.
 - Roles & Responsibilities:
 - Develop plugins for App Factory (Jenkins) for **Continuous Integration** (CI/CD) in groovy to help in nightly builds and smooth releases.
 - Add support for Git Clone in the custom pipeline with SSH and Custom git hosts in Jenkins with help of DSL and Groovy.
- Worked on **Kony Marketplace Platform**.
 - Roles & Responsibilities:
 - Setup and managed server with 99.95% uptime. Use GIT and AWS to cutoff release time by 20%.
 - Successfully managing Bi-weekly release in different environments.
 - Owned and Orchestrated the complete designing and development of **Code Analyzer and Code Coverage Engine** for React JS, which checks for the amount of code covered in the current pull request and helps in increased product quality.
 - Integrate **Amazon's Elastic Search** in place of default database lookup which cut-off API's response time by 75% and also cut-off website load time.

Software Development Engineer **KONY INDIA PVT. LTD, HYDERABAD** **Aug 2017 – May 2019**

- Worked on **Kony Marketplace Platform** (<https://marketplace.kony.com>).
 - Roles & Responsibilities:
 - Owned and Orchestrated the complete High-level Design and Architecture of Marketplace with optimized performance and Google Page Insight score of 95.
 - Develop Pixel-perfect front-end part of Marketplace platform using React, Redux, and Next.js for server side rendering for better SEO results and increased customer base.
 - Also, Enhance the marketplace platform by providing support of Private groups which enables the customers to view and share components only within their organization with high security.
 - Owned and Orchestrated the complete Design and development of **Automation Testing Engine** in Java which provides a daily report for Website and APIs tests status which resulted in increased customer base and enrich product quality.

Associate Software Engineer **KONY INDIA PVT. LTD, HYDERABAD** **Aug 2016 – Aug 2017**

- Worked on **Kony Web portals** (<https://www.kony.com> & <https://community.kony.com/>).
 - Roles & Responsibilities:
 - Develop Pixel-perfect front-end with the responsiveness of Kony Web portals.
 - Integrate Google Analytics and Google tag manager in Web portals to analyse customer interactions.
 - Develop APIs in Drupal in PHP as language.
 - Fix bugs in both front-end as well as in back-end to increase customer experience.
